

## Curriculum Map: Autumn Term 2

### English

To begin this term, we will be learning a journey tale. Delving behind 'The Door' to see where our portal story takes us. Then we will be writing our own magical journey stories.

### Maths

We will start by introducing area through counting squares. Before moving onto this terms focus on learning and improving fluency with multiplication and division facts up to 12x12.

### Science

#### **Animals including humans**

In science, we will be learning what happens to food once it enters our body, understanding the roles of the digestive system and teeth in particular.

### History

This term in History, we will be learning about Ancient Egyptians focusing on their society and their achievements. We will discover who the significant people within society were, their roles and their lasting legacies.

## Amethyst Class

### Computing

During computing, we are going to be exploring audio production and using this knowledge to create our own podcasts.

#### **RE**

We are investigating our enquiry question "What is the most significant part of the Nativity story for Christians today?"

### Music

In Music, we are going to use traditional Christmas songs to understand how we can create effects such as rounds and ensemble singing.

#### **French**

We are going to be learning how to introduce ourselves.

### DT

In DT, we are looking at fastenings this half term. We will be designing and making book covers which have a fastening to secure them in place.

#### **Art**

In art, we will be inspired by the artist George Seurat to create our own charcoal line drawings.

### PE

This half term we are very excited to go to Penzance Gymnastics for our PE lessons, learning gymnastics skills from balancing to vaulting.

#### **Real PE**

In Real PE, we are developing our dynamic balance and static balance skills whilst working to achieve our personal best.
