

Curriculum Map: Spring Term 1

English

In English this half term we will be developing our basic skills. We will be focussing on using capital letters and full stops correctly and adding detail and description to our writing using expanded noun phrases.

Maths

In our daily Maths lessons we will begin to learn about money and then move onto multiplication and division. We will start off using repeated addition and then move onto using arrays to help us answer questions.

Science

In Science, we will be learning about the uses of everyday materials. We will explore the properties of different materials, look at their suitability for different purposes and develop an understanding of which materials can be recycled.

Geography

In Geography, we will be learning about hot and cold places and where they are on the map. We will look at the physical and human features of each.

Topaz Class

Computing

This half term we will be developing our understanding of instructions and sequences and look at how these can be used for programming. We will also explore algorithms and debugging.

Music and Languages

In Music we will be using the glockenspiels to play a range of notes and work on recognising the sound of different instruments.
In French we will be learning all about greetings.

RE, PSHE and RHSE

In RE we will focus our learning around *'Who is God to Muslims?'*
In PSHE we will be learning about jobs in our community and learn how germs are spread.
In RHSE we will learn about the difference in male and female animals.

DT

In DT we will be learning about food and a balanced diet where we will explore hidden sugars, do a taste test and make our own delicious wraps!

PE

In PE this half term we will be doing gymnastics as well as focussing on developing our balance skills.
