

# Curriculum Map: Summer 1

## English

Diamond Class will be diving into an adventure at Sandy Cove, a journey tale that explores the mysteries that hide within a dark, damp cave... While uncovering the adventure, the children will be developing their understanding on a range of key features, learning how to apply these in their own writing.

## Maths

In Maths, we'll be continuing to explore area and perimeter looking at familiar shapes and locations as examples. This will then lead us to statistics, reading and interpreting tables.

We may even get the opportunity to learn about shapes too; using angle knowledge to draw 2d and 3d shapes!

## Science

This half term in Science, pupils will learn about the stages of human growth and development, starting with how babies change physically as they grow and what they are able to do at different ages. This will lead into physical and mental changes that happen to boys and girls during puberty through to adulthood.

## Geography

In Geography, we will be exploring the Mediterranean. While exploring this beautiful location, the children will grow to understand key features of the Mediterranean and why tourists would want to visit. As a part of this, we will also explore some reasons for why people migrate to a different country.

# Diamond Class

## Computing

In Computing, we'll be learning how to create vector drawings, using different drawing tools to help create images.

## Design Technology

In DT, we will apply our computing skills to program a Micro: bit animal monitor using 3D CAD tools to design a case, housing or stand!

## Music

In Music, we'll be developing ensemble and instrumental skills by performing samba rhythms accurately and expressively demonstrating awareness of pulse, dynamics and coordination.

## French

In this unit, we'll be learning how to recognise and recall phrases describing the weather.

## RE

In RE we will be exploring Sikhism, understanding what is the best way for a Sikh to show commitment to God.

## PSHE and RHSE

In PSHE, we'll learn what is meant by the term 'mental health' and how behaviours and routines can positively impact both mental and physical health.

## PE

In PE, we'll continue refining our attacking and defending in netball from last half term and then progressing into doing some swimming!

## Real PE

In this unit, the children will develop and apply their jumping and landing and one leg balance through focused skill development sessions.
